- Beam Angle: 60 Degrees
- 80 - 315V AC/DC Input - 150W

## Part # LUM135HB60

High quality XP-G CREE chip high bay. Provides excellent colour rendering and superb uniform illumination underpinned by 15,000 Lumens output. Featuring a long life internal power supply to create an impressive example of LED technology that is easily controlled with movement sensors. This unit is an LED alternative to traditional 400W metal halide high bays.

An Australian Company  
working with LEDs since 1996
